

# MahCard

## Business Solutions

MahCard is a debit card purposely designed for non-Iranian **visitors** and **temporary residents** in Iran.

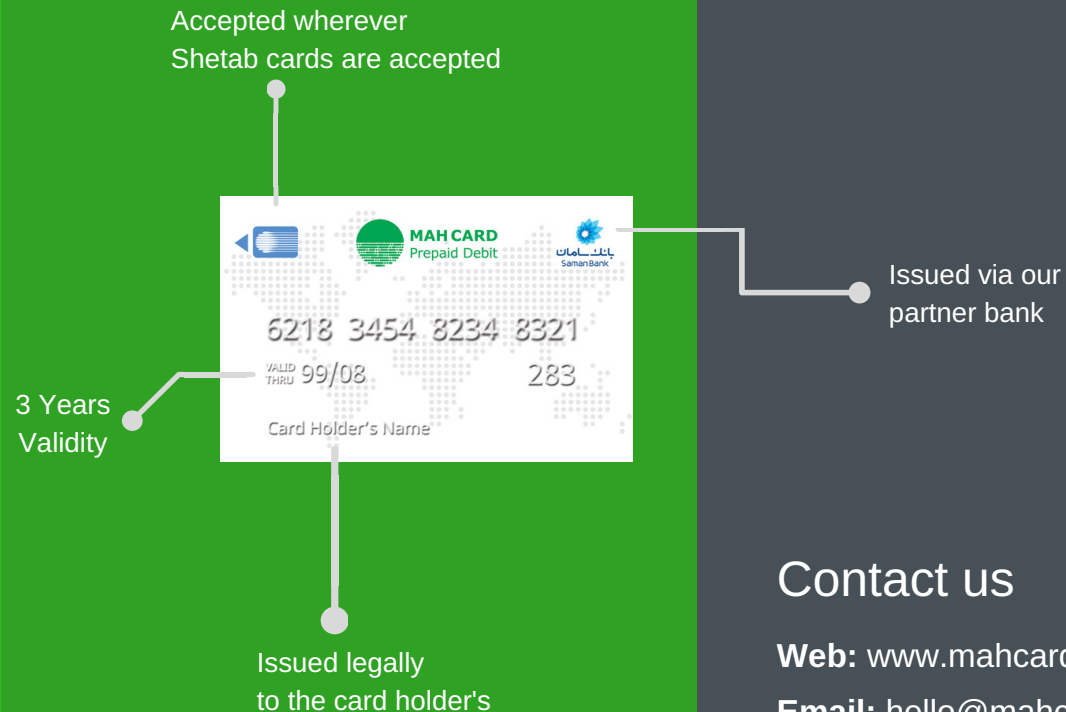

Unlike Gift Cards and other similar cards, MahCard is legally issued to the cardholder. That means that our cards have the card holder's name printed on it and **can be reissued** in case it gets lost or stolen.

Moreover, MahCard is **reloadable** using different payment methods, such as card-to-card or bank transfers.

Our business solution enables you to order MahCard for your employees or beneficiaries online via our custom built web panel.

## Features

- Works similar to standard Iranian debit cards
- Reloadable
- ATM withdrawals
- Card to card enabled
- Second PIN code for online purchases
